		BBQ: MH, ND
		BBQ Volunteers: LP
First Aid Course	27 August	BT
Father's Day	5 September	EW
Grandparents' Day book sale	TBC	
(school run event)		

80s Fundraiser

WOW – what a fabulous event last Saturday night! We raised \$66,967 for the school that night, thanks to so many generous donors beforehand and so many generous buyers and bidders on the night. Organising this night is always a mammoth task, and Georgie Howard and Justine Bennett did an absolutely outstanding job at orchestrating the entire event, including the many volunteers who put in their time, effort and persuasion skills to make this the most exciting and successful fundraiser in BBPS history, I believe. A huge thank you to the overall organisers and everyone who worked so hard to make this a success.

The money raised will go towards technology resources and the upgrade of the outdoor play areas.

Used iPads

Some parents have asked whether the school is able to accept donations of used iPads. Ann Cairns informed me that such used iPads would be very welcome in addition to the standardised/compatible set we are planning to contribute from the 80s Fundraiser money. They can be set up for student use in the classroom or for teacher use with the Interactive Whiteboards. If you have a used iPad that you would like to donate, could you please contact Ann Cairns, the librarian, directly.

CPR/First Aid training - Perform CPR - Basic first aid when caring for kids

Based on feedback from our inaugural First Aid fundraiser, Brendan has proposed a shorter, 3-hour format that we would like to trial in Term 3. It will be a basic CPR course with an added focus on anaphylaxis and asthma that will likely be attractive to parents.

Proposed date: 27 August, 6-9.30h

Proposed venue: School hall, unless alternative spaces can be used in the school

Proposed cost per person: approx. \$65

Proposed cost to P&C: hall hire fee (offset by the proceeds from ticket sales)

This course is nationally recognised (<u>HLTAID001</u> Perform cardiopulmonary resuscitation).

We are also looking at making the course available to parents within the COSIE school community. Rob will seek Maria Hardy's approval to invite parents from these schools to the next event.

Decision required at this P&C meeting

- Approval to run the event in this format
- Approval of event date (27 August, 6-9.30pm)
- Approval of costs and location

City to Surf coordination

Kimberley Johns is coordinating the C2S parking scheme as well as spaces around the school that can be rented out to interested organisations.

Linda Henson, Monique Hitter and Nick Day have kindly agreed to coordinate the C2S sausage sizzle. Liezel Preller has kindly offered to organise volunteers for the sizzle.

A call for volunteers will go out early in Term 3.

Grant Discovery and Application

Gail is liaising with Maria to determine which grants may be applicable for us, including the Community Building Partnerships grants offered through the local federal member Gabrielle Upton's office. With the proceeds from the 80s Fundraiser we are able to consider matching grants schemes to enhance the impact of our own funds.

Henry is also looking at the proposed master plan for the school, and Gail and Henry are considering how grants applications fit into this overall vision.

Next Fundraising Committee Meeting

The next fundraising committee meeting will be early in Term 3. Invitations to follow at the beginning of term.

Please email <u>fundraising@bbpspandc.org.au</u> if you would like to attend.

Antje Hofmann
